Professional Summary

Software Engineering student with three deployed web applications. Proficient in React, Tailwind CSS, and JavaScript with a strong emphasis on responsive design and reusable component architecture. Looking to ship high-quality code in a fast-paced team environment.

Education

BS Software Engineering | CGPA: 3.52/4.0 / *University of Agriculture Faisalabad* 2023 – Present

- Relevant coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Web Development, Software Verification & Validation, and Android Application Development.
- Developed academic projects applying core concepts to practical software solutions.

Technical Skills

Languages	JavaScript (ES6+), HTML5, CSS3
Frameworks & Libraries	React.js, Tailwind CSS
Tools & Platforms	Git, GitHub, VS Code, AI-assisted development tools (ChatGPT, Claude)
Databases	SQL
Soft Skills	Problem-solving, collaboration, attention to detail, Agile development practices

Projects

E-Commerce Website / *React | Tailwind CSS | JavaScript* 2025

- **Cartify** – E-commerce Web Application (React, Tailwind CSS, Clerk, Context API) [Live Demo](#)
 - Built a fully responsive e-commerce frontend with 50+ product listings, 5 category filters, and a persistent cart using Context API for global state.
 - Implemented Clerk authentication with Google OAuth, reducing sign-up friction by an estimated 40%.
 - Designed 15+ reusable components across 6 pages, cutting development time for new features by 60%.
 - Deployed on Vercel with <2s initial load and 99.9% uptime.

Job Portal / *React | Tailwind CSS | JavaScript | Clerk | Context API* 2026

- **Hire-Hub** – Job Portal Web Application [Live Demo](#)
 - Built a responsive job portal interface with category-based job discovery and detailed job listings.
 - Developed reusable components for job cards, category sections, and navigation to improve maintainability.
 - Utilized Context API for state management across application components.
 - Designed and integrated pages including Home, Job Details, Post Job, About, and Contact.

AI Chat Application / *React | Tailwind CSS | Clerk | Gemini API* 2026

- **Echo GPT** – AI Chat Application (React, Tailwind CSS, Clerk, Gemini API)
 - Designed an interactive chat experience focused on simplicity and ease of use.
 - Integrated Gemini API to generate real-time AI responses.
 - Implemented user authentication using Clerk for secure sign-in and sign-up.
 - Improved user experience through a clean and intuitive chat interface.

[Live Demo](#)

Certifications & Professional Development

- **Microsoft Software Development Fundamentals** March 2025
- **Oracle Cloud Application Foundation Certified Implementation Specialist** August 2025

Interests

Backend development with Node.js | Open-source contribution | Cloud computing
